- Management System

Our Strengths and Sustainability

*In house laboratory

- In house laboratory, recognized by China National Accreditation Service(CNAS) & ISO/IEC17025
 - Chemical test : Melamine & formaldehyde migration
 - Ash content

Our Strengths and Sustainability

*Factory Audit

○ EU Market

BSCI

SEDEX

○ US Market

NSF factory audit, product management system with traceability.

Our Strengths and Sustainability *Automation System

Automatic
Grinding
machine

In recent years, we introduction automatic machines for different processes. Such as Automatic Grinding machine, Automatic sealing machine.

Automatic
sealing
machine

We also hastened the development of Brushing decal machine, related energy-saving equipment for forming processes, and focus on reducing the costs.

*Management System

- ERP system (worth 1 million)

- Critical Control point (CCP) system monitor production

Feature : Control molding time and temperature

Achieve : Greater shininess & smoothness of products quality

- Upgrade MES system, Let production management and cost control more refined.

- Energy Control System

Feature : to monitor our workshops energy consumption.

Achieve : regulates any abnormal consumption and cost control

Quality Control

- 100% check for semi- finished products
- pre-shipment inspection
- Lab test

*International Partners
